## Newsletter

Hi Everyone,

It has been a long time since I have been able to send out a newsletter to everyone. We've undergone significant changes with computers and software that had to be finalised before getting this sent to you all. Added to that, moving everyone's details onto the new system was very challenging! If I've got your details incorrect, please let me know.

All our clubs are winding down for the year now and we have a growing list of people waiting for the 2018 clubs to begin. We are planning to change the format of all our clubs for 2018 including the timeframes. We intend to have shorter rounds beginning in March, and running for three months, meeting fortnightly. We are also having day and evening editions of each club.

## Workshop News

With the large numbers of machines already in the workshop for service and repairs we are having to close intake of machines into the workshop from 4<sup>th</sup> December so that Nick can have all machines back to owners for Christmas. The only exception will be those machines due for their free service in December.

## Nick's Tip from the Workshop

Choose the correct needle for the fabric and project you are currently working on. A slightly bent or blunt needle impacts on stitch quality. Ask for a 'Needle Compass' booklet at the front desk to help guide you. We recommend changing your needle regularly – even as often as each new project depending on the type of fabrics you are sewing.

The 2018 Inspirations Calendar  
is now in stock. \$25 each  
For yourself or as a gift for a  
stitcher these calendars are  
unbeatable

## Christmas Projects and Gifts

Kits of projects for you to complete or give as a gift for someone else to stitch. There is also a range of non-Christmas theme stitcheries which will make wonderful gifts too
