New and Restocked Knitting Patterns

New Fabrics

There is a range of dress making fabrics for your winter sewing projects including wool mixes, rayons, chambray, tencel and lots more

We also have the 2019 Christmas fabrics available now

Techie Tip From Nick

How often do you change the needle in your machine? When inserting a new needle it only needs to be finger tightened so you can easily replace it next time its blunt or change types of fabric. Talk to us about the range of types and sizes of needles to select from for the best needle for your current sewing project.

For a short time we have Kate's awesome quilt hanging in the store. Come in to see it in real life. This is a foundation pieced work of art

This is my latest knitting project developed from one of the blocks in the Learn to Knit class – just another reason to join our group

No Sewing Required

We have kits available to make a unique personal iron pad and cutting mat – perfect for beside you while travelling, at retreats or in your symposium class. I added handles for easy carrying. This is a fun and easy project to make as a gift or for yourself.

And finally, you may have heard through the local grapevine that Tim is standing for Council in the Okara Ward. Rest assured he is not leaving our team. He will likely need to have a few times away from the store, but he will always be back.

Find us on Facebook and like our page to get the latest news first and to keep up to date with what is happening in the store. www.facebook.com/berninanorthlandsewingcentre
