

Pattern uses 20cm across width of fabric to make 2 masks.
Use $\frac{1}{4}$ " seams for all seams.

With right sides together stitch sides 'A'

Reposition pieces matching seams.

Stitch across sides 'B'

Stitch across sides 'C' leaving a turning gap.

Turn right side out.

Press then top stitch all round masks.

Fold sides 'D' over 1cm & stitch to form casing for elastic or bias binding.

Thread in 1m strip of bias binding in each side OR
25cm 6mm elastic.

Stitch in centre to secure ties so they can't pull out.

To wear with bias binding ties - tie top & bottom opposing ties so they cross over at back of head to prevent mask slipping.
